To Whom It May Concern:

I am writing this letter of recommendation on behalf of the Black-Jew Dialogues.

This event was well received by our student, faculty, staff and community members. They enjoyed the short-skits format and the mixture of humor around biases and the poignancy of historical events. For example, some students stated that they were not aware of the plight of the Jews. Faculty and students characterized the language and skits as "getting real" which I believe they appreciated because the actors said things that so many people think but do not say out of political correctness.

Faculty and staff expressed that they would like to see this program again in the future.
